Our Key Limes

Our juiciest and high-quality key limes are grown and harvest in the largest lime producing and exporting country, Mexico.

**Our fields are in Colima.
Our packing houses in Baja California and Veracruz.**

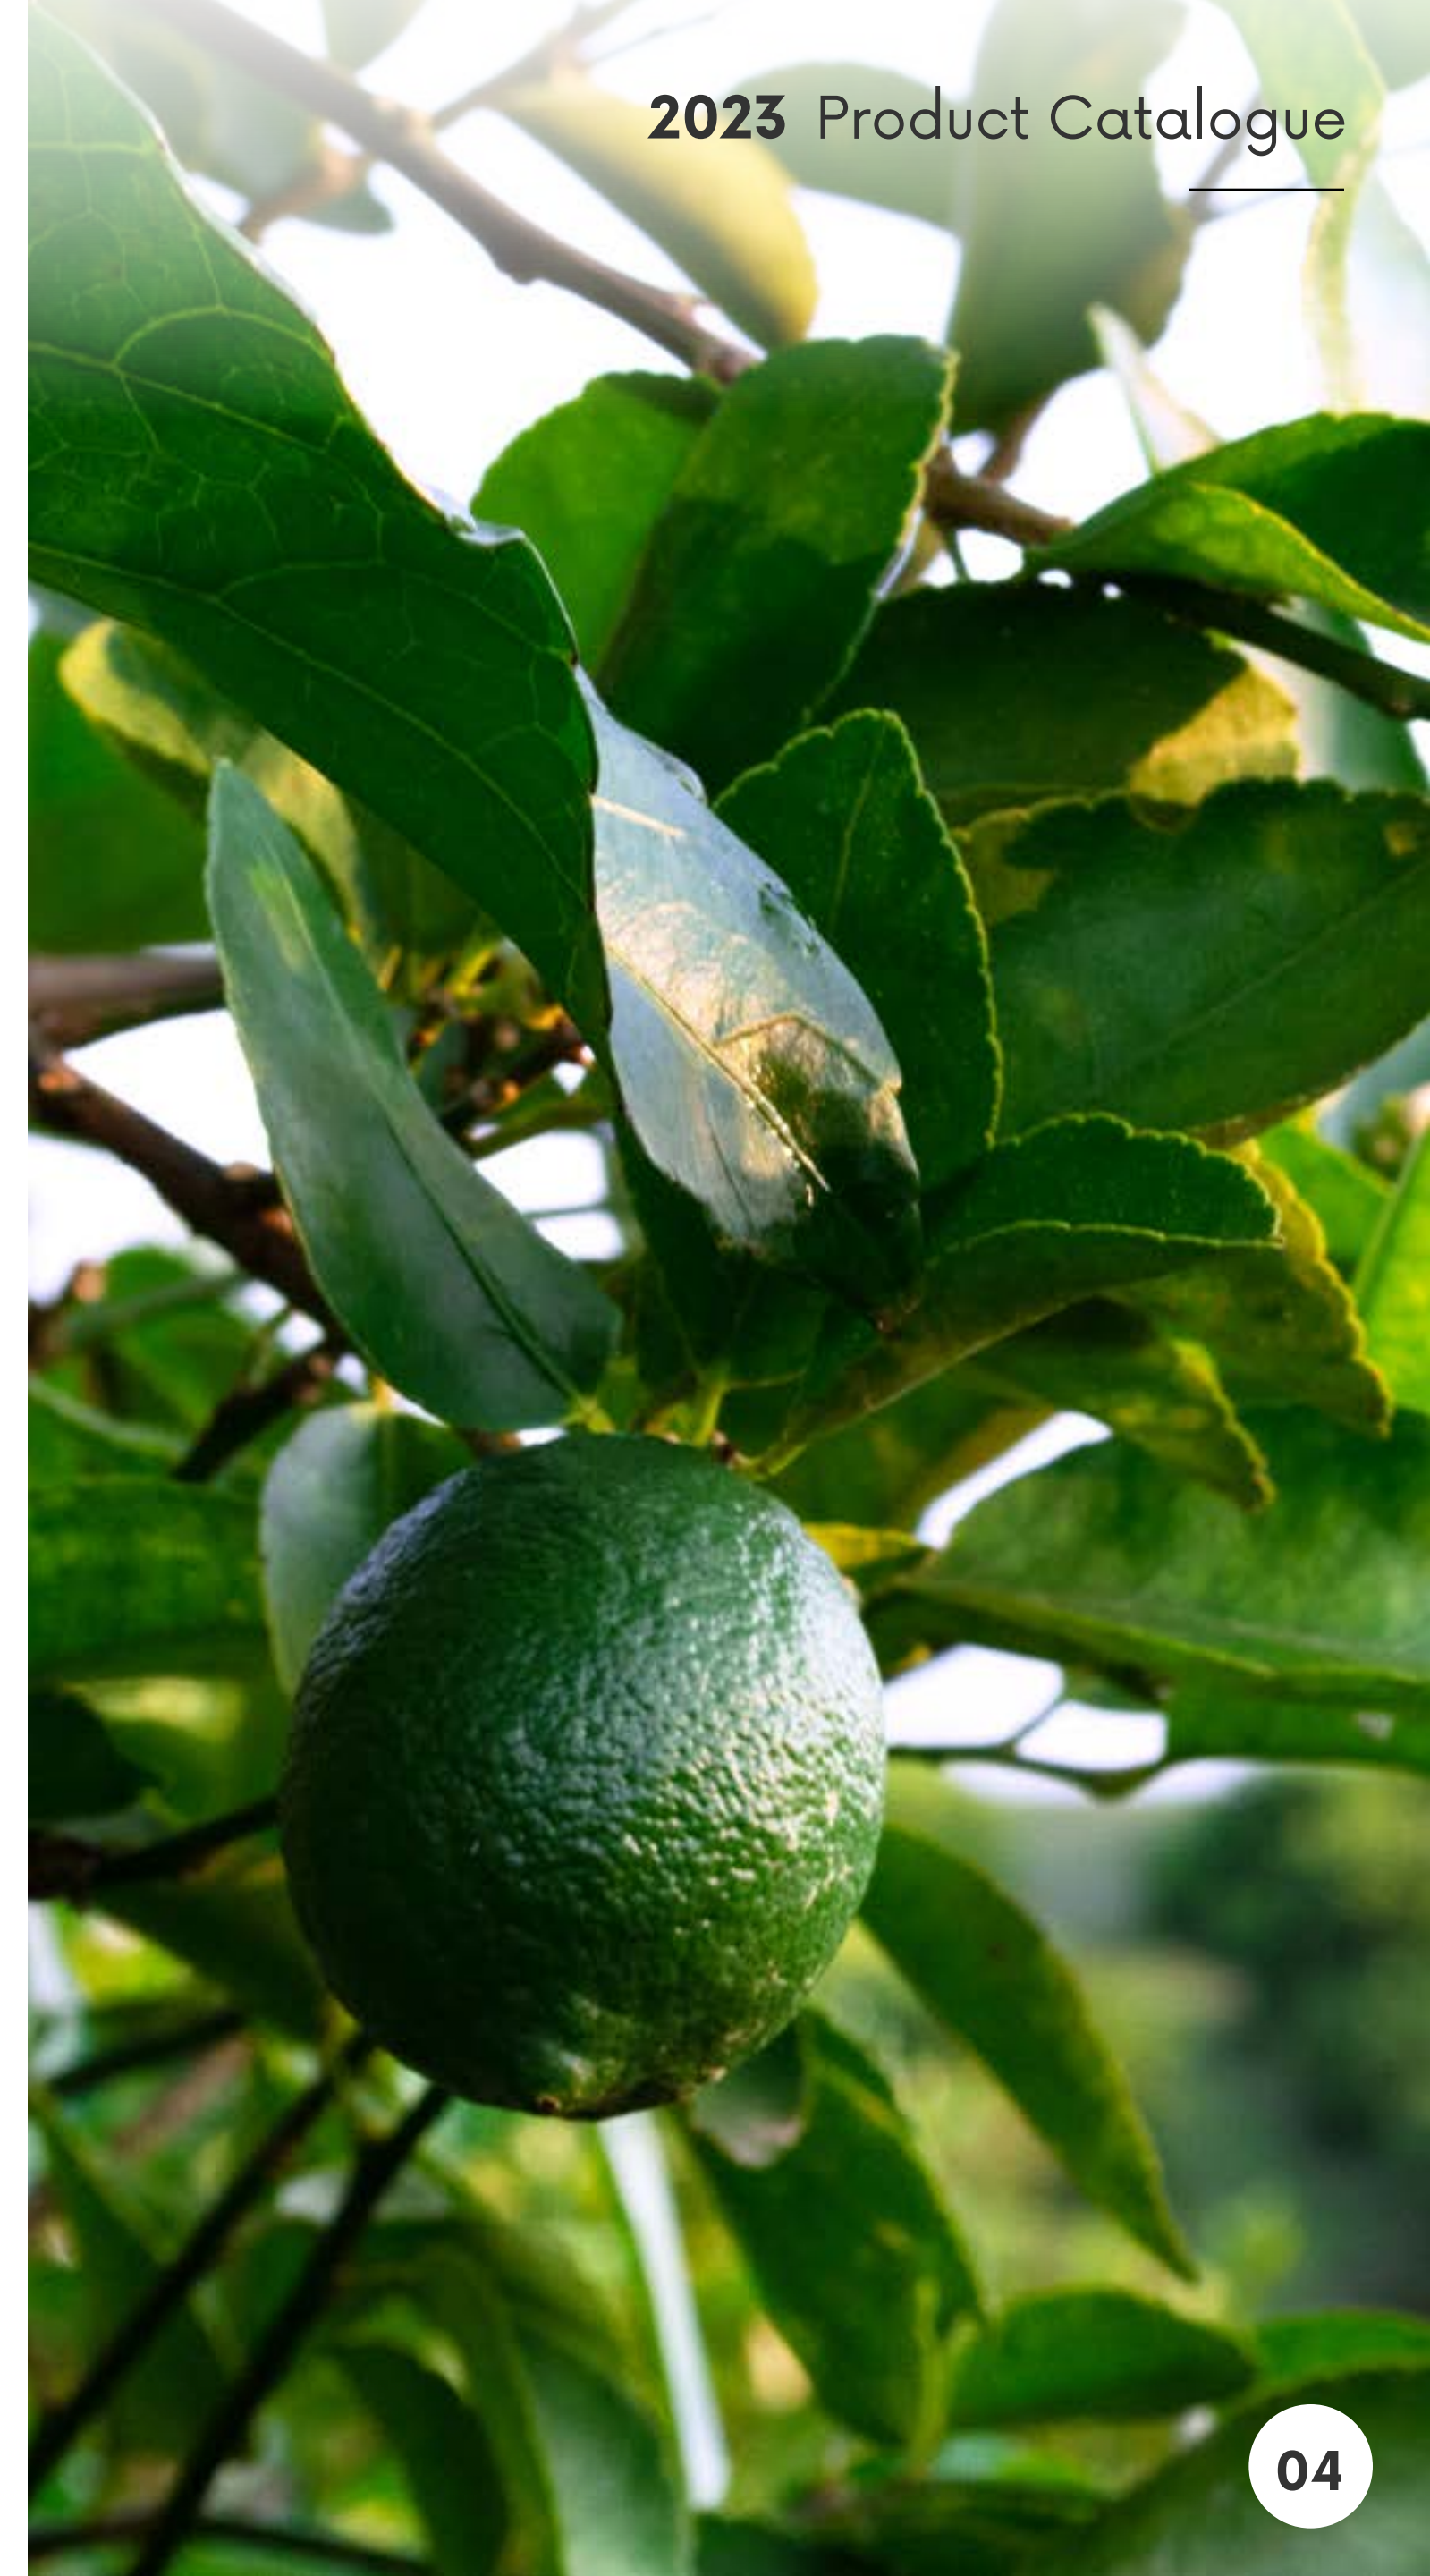

Our Key Limes

Key limes are a small oval fruit with a thick green rind which is prone to splotchy brown spots and turns yellow at their greatest maturity.

They are aromatic and very juicy, with a stronger and more complex acidic flavor than Persian limes.

Their size are about 2.5–5 cm (1–2 in) in diameter.
